GREETINGS!

When CNN's Laura Coates visited Memphis last month she made some very profound remarks during her Keynote Speech. One that got her a wholesome applause from the audience was, "if you are at the table but do not use your voice, get up and allow someone else to take that seat who is willing to use their voice". I know you can relate to that because we have some of those folks occupying seats at some of our tables in positions to be useful but for fear or whatever their hesitation is, they just won't fight for us! If you know that some of those folks you voted for are behaving that way then please do not vote for that person again. They won't change. You have to make the change.

My mom used to have a saying that sticks with me to this day...it's "start out, like you can hold out"! I think that we have some very serious and important decisions to make regarding this upcoming election. We can't keep doing the same thing over and over and expecting different results.

***Vote No on the Referendum to extend terms!***

With that said, there are some folks that I am very excited about on the Democrat slate of nominees! I have indicated that on the inserted ballot pages. I also have a selection of judges that I have been following and that I am familiar with. This is how it works...the center fold of this publication is the Judges only Ballot. It is not stapled or attached so it easily pulls out. The next centerfold and pull out ballot is for the County/State and Federal candidates.

That ballot will pull out easily too. Both ballots are legal to take inside the polling station to use to vote. You do not have to concern yourself with rolling your window down or taking a ballot from someone you do not know or trust! Please take a moment and find whatever information you need to determine who you will be voting for and mark your ballot accordingly. This will save you time and prevent you from having to rely on others.

Roe V. Wade, Gun Control, Gas Prices, Food Prices, the sinking Economy, Child Care Cost, Voter Suppression, Civil Rights Reversal, Climate Control, Involuntary Relocation vs. Slavery, Unstable Democracy, Mass Murders... Covid19, Monkey Pox, China, Russia..! Whew... we have so much to be concerned about but much of it is not up to us but those we trust to help us get through these tough times.

At no other time in our history have we had more need to unite and organize. These issues are taking us to war with one another. What has made our nation strong is the fact that we have come together to fight every single war we fought whether it was the war on drugs or otherwise. We know what to do, we just need to figure out a way to get it accomplished. We know right from wrong. We do not have to keep repeating the same mistakes.

This is my prayer...Lord please BLESS AMERICA.

***CNN's Laura Coates joins WILLOW in Celebration of the United States Supreme Court Justice Katanji Brown Jackson!***
